September 19, 2017  WTI 101
Hosted By:  Pathology
John Y-J. Shyy, PhD
Professor, Department of Medicine/Division of Cardiology
University of California, San Diego
“Shear Stress Regulation of Endothelial in Health and Disease”

October 3, 2017  WTI 101
Hosted By:  Pathology
Ralph Sanderson, PhD
UAB Endowed Professor of Cancer Pathobiology
“Heparanase-mediated regulation of exosomes that promote tumor progression and chemoresistance”

October 17, 2017  WTI 101
Hosted By:  Surgery
Rita Bottino, PhD,
Institute of Cellular Therapeutics
Allegheny Health Network
“The present status of islet auto-, allo-, and xeno-transplantation”

November 7, 2017  WTI 101
Hosted By:  Biomedical Engineering
Philippe Menasche, MD, PHD
Professor of Thoracic & Cardiovascular Surgery
University of Paris Descartes
“Seminar Title Pending”

November 21, 2017  WTI 101
Hosted By:  Pathology
Gianfranco Alpini, PhD
Professor, Department of Internal Medicine and Medical Physiology
College of Medicine, Texas A&M University
“Neuroendocrine regulation of liver fibrosis in cholangiopathies”

December 5, 2017  WTI 101
Hosted By:  Surgery
To Be Named
“Seminar Title Pending”

December 19, 2017  WPCC-E
Hosted By:  Biomedical Engineering
Steven P. Jones, PhD, FAHA,
Professor of Medicine, Inst. of Molecular Cardiology
University of Louisville
“Seminar Title Pending”
